

VISVESVARAYA TECHNOLOGICAL UNIVERSITY

INSTITUTIONAL ATTENDANCE MANDATES & LEAVE MANAGEMENT MANUAL

SECTION 1: STATUTORY BASELINE & TRACKING MECHANISMS

1.1 The VTU Central Mandate

In strict accordance with the academic regulations of **Visvesvaraya Technological University (VTU), Belagavi**, academic credit is tied directly to regular classroom attendance. Attendance tracking is handled per course module, and each semester is treated as a single independent tracking unit.

1.2 Digital Logging and Verification Framework

The institution tracks student attendance using a multi-layered digital process to ensure accuracy:

- **Real-Time Portal Entry:** Faculty members log student attendance digitally within the first 10 minutes of every lecture, tutorial, and practical session using the institutional Enterprise Resource Planning (ERP) portal.
- **System Integrity:** The portal automatically aggregates attendance records daily. Students can track their real-time attendance percentage dynamically through their student dashboard app.
- **Weekly Audits:** Every Monday morning, Departmental Heads (HODs) review the attendance metrics for all classes. The system automatically sends an email alert to the registered parents or guardians of any student whose cumulative attendance falls below the **85%** threshold.

SECTION 2: THE 85% RULE & CONDONATION BRACKETS

[100% - 85%] — STANDARD COMPLIANCE ZONE: Full eligibility for End Semester Exams (ESE).

[84.9% - 75%] — CONDONATION ZONE: Eligible for relief ONLY via Medical or Duty Leave approval.

[Below 75%] — DISQUALIFICATION ZONE: Mandatorily barred from exams; marked as "N" Grade (Course Repeat).

2.1 The Standard Compliance Bracket ($\geq 85\%$)

Every student must maintain a minimum physical attendance threshold of **85%** in both the theoretical components and the practical laboratory sessions of each registered course. Meeting this target grants full, unconditional entry into the End Semester Examinations (ESE).

2.2 The Condonation Window (75% to 84.9%)

If a student's attendance falls within this range, they are disqualified from exams unless they secure a formal **Condonation Order** from the Principal/Dean of Academics. This relief is capped at a maximum allowance of **10%** and is restricted to the two specific scenarios outlined below:

Category A: Verified Medical Ground Condonation

This applies to students missing classes due to serious illness, infectious diseases requiring quarantine, surgical procedures, or severe physical trauma.

- **Documentary Requirements:** The student must present a signed Medical Certificate from a Registered Medical Practitioner (holding an MD or MBBS qualification) along with hospital admission/discharge summaries, diagnostic lab reports, and official prescriptions.

Category B: Institutional Representation & Co-Curricular Duty Leaves (DL)

This applies to students officially selected to represent the institution or university in national or state-level sports tournaments, inter-collegiate technical symposia, mandatory NCC/NSS training camps, or authorized placement drives.

- **Documentary Requirements:** The student must present a formal Duty Leave authorization form signed by the supervising faculty coordinator and countersigned by the respective Head of Department *before* the event takes place.

2.3 The Non-Negotiable Disqualification Floor (< 75%)

The Hard Floor Directive: Under no circumstances—including prolonged medical emergencies or chronic illnesses—can a student be permitted to sit for the End Semester Examination if their physical attendance in a course falls below **75%**.

Any student breaking this limit is automatically given an **"N" Grade** (Not Eligible) for that specific subject. They will be barred from taking the exam, their hall ticket for that course will be withheld, and they must re-register for the course from scratch when it is next offered in a subsequent regular semester or fast-track summer term.

SECTION 3: ADMINISTRATIVE LEAVE TRACKING FLOW

To ensure leave and duty requests are officially recognized and updated in the ERP system, students must complete the following multi-step approval sequence:

Leave Authorization Sequence

1.Step 1: Document Compilation & Entry: Within 48 hours of returning to campus.

The student must scan all supporting medical evidence, discharge slips, or event participation certificates. They must upload these files to the leave module of the ERP student portal and print a physical hard copy of the application.

2.Step 2: Departmental Review: Within 3 working days of return.

The student must present the physical application and original certificates to their assigned Faculty Class Advisor. The Advisor verifies the documents, updates the internal department logbook, and routes the request to the Head of Department (HOD) for official approval.

3.Step 3: Institutional Sanction & ERP Update: Prior to the final internal assessment lock.

The HOD sends the approved medical or duty file to the Dean of Academics/Principal for final signature. Once signed, the institutional ERP Administrator updates the student's dashboard, changing the flagged absences to "Approved Medical/Duty Leave" and adjusting the calculated attendance percentage.

SECTION 4: LAB INTEGRATION & FAST-TRACK RECOVERY CODES

- **Integrated Course Splits:** For courses that feature both an integrated theory lecture and an associated practical laboratory component, the attendance metrics are tracked independently. A student who maintains a 90% attendance level in the theory component but falls to a 70% level in the practical sessions will be **barred from taking both the practical exam and the written ESE theory paper** for that entire course code.
- **The Fast-Track Summer Semester Option:** If a student receives an "N" grade due to poor attendance, they can apply to clear the course during the compressed **8-week Fast-Track Summer Semester** organized immediately after the even semester exams.
- **Summer Enrollment Constraints:** Students enrolled in the summer semester face stricter attendance standards. Because of the accelerated pace of instruction, students are permitted a maximum of **2 unexcused absences** before they face immediate disqualification.
