

VISVESVARAYA TECHNOLOGICAL UNIVERSITY

OFFICIAL INSTITUTIONAL ACADEMIC & CAMPUS LIFE FAQ

SECTION 1: ACADEMICS & CHOICE BASED CREDIT SYSTEM (CBCS)

Q1.1: What is the Choice Based Credit System (CBCS), and how does it benefit my engineering roadmap?

The CBCS framework provides an adaptable academic structure rather than a rigid, predefined path. Under this system, you can choose interdisciplinary electives, opt for advanced professional tracks, and space out your learning pace based on your capabilities. Academic performance is measured using credit units, allowing seamless transfer of credits to other recognized universities worldwide.

Q1.2: What is the difference between Core, Professional Elective, and Open Elective courses?

- **Discipline Specific Core Courses (DSCC):** These are mandatory foundational subjects within your chosen branch that you must pass to qualify for your degree.
- **Professional Elective Courses (PEC):** These are advanced, specialized subjects within your own department, allowing you to focus on a specific sub-domain (e.g., AI/ML within Computer Science, or Robotics within Mechanical Engineering).
- **Open Elective Courses (OEC):** These are interdisciplinary subjects offered by *other* departments, enabling you to gain broader perspective in areas like data analytics, financial management, or environmental engineering.

Q1.3: How can I graduate with a "B.E. / B.Tech. (Honors)" degree under VTU guidelines?

To qualify for an Honors degree, you must meet the following criteria:

1. Maintain a cumulative CGPA ≥ 8.50 at the end of your fourth semester with no active or history of backlogs.
2. Register for the Honors program at the start of your fifth semester.
3. Earn 18 additional advanced credits through university-approved online platforms like NPTEL or SWAYAM.
4. Complete these courses concurrently alongside your regular 5th to 8th-semester engineering coursework.

SECTION 2: EXAMINATIONS & GRADING ARCHITECTURE

Q2.1: How are Continuous Internal Evaluation (CIE) marks calculated?

CIE marks (maximum of 50) are compiled systematically throughout the semester using a combination of testing methods:

Assessment Component	Sub-Component Breakdown	Maximum Marks Allocation
Internal Assessment Tests	Average performance across 3 centralized written tests	30 Marks
Experiential Learning	Quizzes, open-ended assignments, or mini-case studies	10 Marks
Seminars & Technical Content	Topic presentation, technical writing, or viva-voce	10 Marks
Total CIE Pool	Formative Semester Internal Score	50 Marks

Q2.2: What happens if I miss an internal assessment test due to a medical emergency?

If you miss a scheduled test due to an unforeseen medical emergency, you must submit a formal application along with a registered hospital medical certificate to your Head of Department (HOD) within 3 working days of your return. If your reason is approved, the department will organize a CIE Remedial Test before the end of the semester, covering the missed portion of the syllabus.

Q2.3: How can I request a revaluation or look at my final exam answer script?

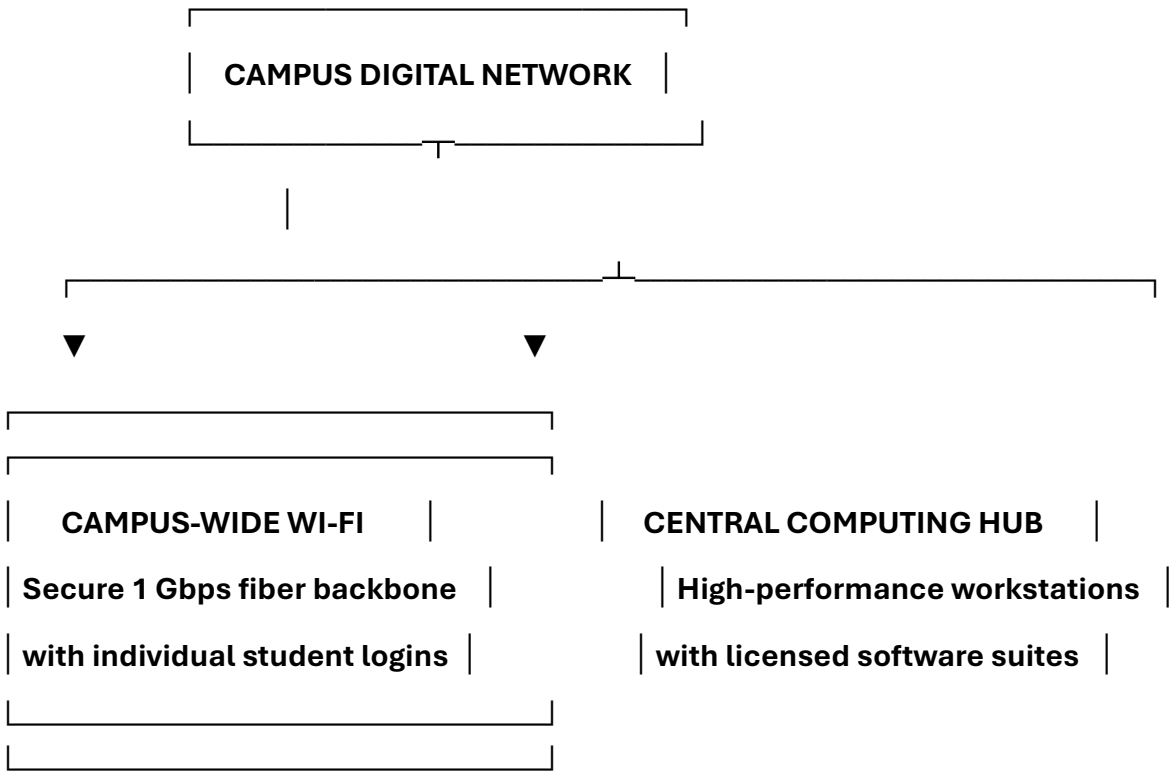

If you are unsatisfied with your End Semester Examination (ESE) results, you can apply for the following services through the university portal within 10 days of the results declaration:

- 1. Digital Photocopy Access:** You can pay a statutory university fee to view a digital scan of your evaluated answer script online.
- 2. Formal Revaluation:** If you spot grading discrepancies, you can request a formal revaluation. Your script will be re-graded independently by a fresh external examiner panel.

SECTION 3: CAMPUS AMENITIES & INFRASTRUCTURE

Q3.1: What computing and internet infrastructure is available on campus?

The institution provides extensive digital connectivity infrastructure:

Q3.2: What are the operational rules and lending policies of the Central Library?

- **Operating Hours:** The library is open from 8:00 AM to 8:00 PM on standard working days, and from 9:00 AM to 4:00 PM on Sundays and public holidays.
- **Borrowing Limits:** Undergraduate students can borrow up to 3 text books concurrently for a maximum duration of 14 calendar days.
- **Late Penalties:** A standard overdue fine of ₹5 per day is automatically added to your library card for any book returned past the due date.
- **Digital Access:** Your library card grants you full remote access to institutional subscriptions for online databases, including IEEE Xplore, ScienceDirect, and SpringerLink.

Q3.3: What medical and healthcare facilities are available on campus?

The campus features a fully functional Health Services Center staffed by full-time resident nurses and a visiting medical officer. The center provides:

- **Free primary healthcare consultations, triage care, and emergency first-aid treatment.**

- **A dedicated 24/7 critical care ambulance parked on-site for immediate medical transit to the nearest multi-specialty hospital.**
- **A comprehensive Student Group Medical Insurance Policy included with your admission fees, providing financial coverage for unexpected medical treatments or hospitalization during your studies.**
